

Please---enough is enough---nowhere did anyone tell the public about monies for the ballpark in Hartford. Our state government did make some commitments to public education across this state---how about meeting those commitments first ??? Local B.O.E.'s are already in the bottom of the 9th financially and local taxes are increasing in attempts to keep quality education in Ct. towns. I'm sure the ballpark would be beautiful---BUT a good education would be fantastic---a grand slam !
